

Question:

I would like to know the weight of one bundle of rags and coveralls. Also, an estimation of rags, matts, and coveralls cleaned per week if possible.

Answer:

Each bundle of rags just weighs a couple pounds at most but no more than 5. Since we haven't used the mat service in a few years, I'd estimate about 10 mat per week. The uniforms based on the most recent receipt will be about 38/40 per week.
